## MAKING EDITS TO THE CATALOGUE

You can make individual edits to the catalogue before the sale has been loaded, at which point it is too late. Once the sale is catalogued by the AuctionsPlus Rep in charge of your sale, you will no longer be able to make any edits until they can withdraw the catalogue for you.

Until then, in order to make edits you need to go to the individual lot and hit the red unpublish button. You will then be given the option to change details using the change button.
